	Vitamin F forte	Linoleic Acid, Linolenic Acid	3.0	CLR
	Dermofeel Toco 70 non GMO	Tocopherol, Helianthus Annuus (Sunflower) Seed Oil	0.05	dr.straetmans
C	Belides™ ORG	Bellis Perennis (Daisy) Flower Extract	5.0	CLR
	Citric Acid (10%)	Water, Citric Acid	0.54	

Manufacture

Add the ingredients of A in the given order into the water, one after another and stir until completely dispersed. Mix B, heat up A and B to 75°C-80°C separately. Add B to A while stirring. Homogenize for 2 minutes at 18000 rpm by ultra turrax. Cool down while stirring and add C at room temperature. Adjust pH value to 5.7.

The recommendations and formulations given are based on our knowledge and experience in the field of technical application. They are, to the best of our belief, correct, but are offered without obligation. Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

*) This formula has been manufactured and stability tested using a special preservative, but has not been subjected to microbiological challenge tests.
