	DayMoist CLR™	Water, Hydrolyzed Corn Starch, Beta Vulgaris (Beet) Root Extract	3.00	CLR
D	Microcare SB*	Water, Sodium Benzoate, Potassium Sorbate	0.80	Thor GmbH

Manufacture:

Predisperse phase A and stir until completely hydrated. Mix B, one after another and heat up to ~ 50°C. Slowly add B to A and stir until uniform. Add C and D in the given order below 30°C. Adjust pH value to 4.5-5.

The recommendations and formulations given are based on our knowledge and experience in the field of technical application. They are, to the best of our belief, correct, but are offered without obligation. Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

*) This formula has been manufactured and stability tested using a special preservative, but has not been subjected to microbiological challenge tests.
