

## Eye Contour Cream – Gel (O/W)

**MPC™ - Milk Peptide Complex, Belides™ NP**

**FORMULA No. 355.01.0316\_2**

| Phase | Trade Name                            | INCI Name                                     | w/w %      | Supplier   |
|-------|---------------------------------------|---|------------|------------|
| A     | Arlamol HD                            | Isohexadecane                                 | 2.0        | Croda      |
|       | Tegosoft DEC                          | Diethylhexyl Carbonate                        | 10.0       | Evonik     |
|       | Abil 350                              | Dimethicone                                   | 1.0        | Evonik     |
| B     | Aristoflex AVC                        | Ammonium Acryloyldimethyltaurate/VP Copolymer | 1.2        | Clariant   |
| C     | Water                                 | Water   | ad 100     |            |
|       | Glycerin                              | Glycerin                                      | 5.0        |            |
|       | Euxyl PE 9010*                        | Phenoxyethanol, Ethylhexylglycerin            | 0.6        | Schülke    |
| D     | NaOH (10%)                            | Sodium Hydroxide                              | q.s.       |            |
| E     | <b>MPC™ - Milk Peptide Complex</b>    | Whey Protein                                  | <b>0.5</b> | <b>CLR</b> |
|       | Trisodium Citrate x 2H <sub>2</sub> O | Sodium Citrate                                | 0.12       |            |
|       | Water                                 | Water   | 9.38       |            |
| F     | <b>Belides™ NP</b>                    | Bellis Perennis (Daisy) Flower Extract        | <b>2.0</b> | <b>CLR</b> |

### Manufacture

Mix A and stir until uniform. Add B to A and stir until homogenous. Add C under stirring and adjust pH value to 6-7 with D. Add Predisperse phase E and F under stirring.

pH-value: 6-6.5

The recommendations and formulations given are based on our knowledge and experience in the field of technical application. They are, to the best of our belief, correct, but are offered without obligation. Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

\*) This formula has been manufactured and stability tested using a special preservative, but has not been subjected to microbiological challenge tests.
