Every Age. Every Beauty.

Five generations. Five prototypes. One vision of beauty.

Beauty has no limits and no age. Our new concept brings five inspiring formulations to life – from playful Gen Alpha to confident Baby Boomers. Each prototype celebrates individuality, creativity, and self-expression, proving that the future of beauty is ageless.

At CLR, we are committed to making a difference. With all our expertise, we create active ingredients that are highly effective, sustainable, safe and relevant to the consumer, always with a focus on the health of the skin. With this approach, we help people all over the world to feel comfortable in their skin.

Explore five innovative prototypes designed to capture the spirit of every generation.

Which generation are you?

CLR Formulation Concepts

Hello Magic

Color Changing Cleansing Mask

This bubbly mask transforms before your eyes – changing color from grey to red while it cleanses and improves skin health. **CutiBiome CLR™** noticeably reduces sebum, papules, pustules and comedones through microbiota regulation, providing a pure complexion. **ProRenew Complex CLR™** safeguards the skin's ecosystem and improves overall skin quality and health.

A playful, shareable skincare moment designed for the digital-native Gen Alpha.

Featured Products

MultiMoist CLR™ – Making real waves in skin moisturization

MultiMoist CLR™ activates production of the vitamin D receptor (VDR) and promotes the VDR's activation. MultiMoist CLR™ also potentiates the effect of vitamin D. As a consequence the skin becomes more moisturized. By making use of 5 different objective instrumental approaches, the immediate and long term moisturizing properties of MultiMoist CLR™ were convincingly proven. Additionally, the activity of MultiMoist CLR™ was proven in a consumer study, where the subjective improvement of skin moisture content, skin smoothness and the look of skin were confirmed.

MultiMoist CLR™ consists of a powerful synergistic blend of fructooligosaccharides and beta vulgaris (beet) root extract.

Dosage: 3.0%
pH range: 3.0–8.0

INCI Name:
Fructooligosaccharides, Beta Vulgaris (Beet) Root Extract, Water

MultiMoist CLR™
is unpreserved.

ProRenew Complex CLR™ – Postbiotic support for skin and its microbiota

ProRenew Complex CLR™ acts on essential features in the aging process of the skin, its ability to successfully adapt to a constantly changing environment and to effectively renew itself.

ProRenew Complex CLR™ positively influences the speed and quality of epidermal growth. It has shown to effectively promote desquamation, the shedding of dead cells. ProRenew Complex CLR™ is beneficial for both the health of skin and the skin microbiota. It balances and protects the skin microbiota and supports it in dealing with day-to-day stress.

Dosage: 3.0%
pH range: 4.0–7.0

INCI Name:
Lactococcus Ferment Lysate

ProRenew Complex CLR™
is preserved with sodium benzoate.

Also available as
ProRenew Complex CLR™ NP,
stabilized with phenylpropanol and levulinic acid/sodium levulinate.

for fine cosmetics · since 1926

CutiBiome CLR™ – Calibrating the skin's ecosystem

CutiBiome CLR™ is a synergistic complex of lipophilic extracts from manuka, black pepper and magnolia. It provides essential support for the natural balance between skin and its microbiota in difficult situations, like acne and dandruff.

CutiBiome CLR™ reduces the film forming activity and significantly inhibits the growth of virulent phylotypes of Cutibacterium acnes. In vitro and in vivo studies show that it strongly reduces inflammation involved in acne and dandruff. On people suffering from acne, the use of CutiBiome CLR™ leads to a dramatic and perceivable reduction of sebum production, comedones, pustules and pimples.

Dosage: 1.5–3.0%
pH range: 4.0–7.0

INCI Name:
Octyldodecanol, Leptospermum Scoparium Branch/Leaf Oil, Piper Nigrum Seed Extract, Magnolia Officinalis Bark Extract

CutiBiome CLR™ is unpreserved.

Glow Up

AHA Skin Peeling Liquid

The Glow Up AHA Skin Peeling combines the exfoliating power of AHAs with advanced bioactives. The formulation provides hydration with **MultiMoist CLR™**, refined skin texture and smoothed complexion with **CutiFine CLR™**, and anti-aging effects with **CutiGuard CLR™**. The result is smoother, more radiant and youthful skin.

A peeling concept perfectly aligned with Gen Z's expectations for conscious, functional, and science-driven beauty that delivers confidence-boosting results.

Featured Products

CutiFine CLR™ – The all-in-one skin refiner

CutiFine CLR™ refines skin texture and complexion with soft focus. Conspicuous skin pores are a great concern for consumers, especially for those who have oily and combination skin. As skin ages, skin pores become also more pronounced, making skin pores the latest anti-aging skincare goal for consumers and skincare brands alike.

Based on a synergistic combination of extracts of Vaccaria segetalis (Cowherb) and Adansonia digitata (Baobab) pulp, CutiFine CLR™ is an all-natural, safe and effective skincare active which goes to the core of the causes leading to conspicuous pores. It works on all important biological processes which lead to pore enlargement, but also reduces the color contrast of the pores with the surrounding skin, an until now largely overlooked but essential feature. CutiFine CLR™ constitutes an all-in-one approach to reduce the conspicuousness of pores.

Dosage: 3.0%
pH range: <6.5

INCI Name:
Water, Gypsophila Vaccaria Flower/Leaf/Stem Extract, Adansonia Digitata Pulp Extract
CHINA CosIng* Water, Vaccaria Segetalis Extract, Adansonia Digitata Pulp Extract

* The INCI name Vaccaria Segetalis Extract should be the preferred option when CHINA compliance is needed.

CutiFine CLR™ is stabilized with pentylene glycol and phenylpropanol.

CutiGuard CLR™ – Timeless beauty at first sight

CutiGuard CLR™ provides an innovative approach to skin longevity by harnessing the extreme natural adaptivity of the red alga Galdieria sulphuraria and transferring its resilience to aging skin. It potentiates the guardians of youthful skin, p62, selective autophagy, and nuclear HMGB1, to reduce the accumulation of cellular GATA4 and extranuclear HMGB1. As a result, it prevents the buildup of senescent skin cells and inflammaging.

Consequently, CutiGuard CLR™ makes skin look visibly younger and more attractive, even at first sight, demonstrated in an industry first 'first impressions' study. It reduces wrinkles and improves skin firmness. Skin color evenness and radiance are also perceptibly improved, two critical cues of facial beauty.

Dosage: 3.0%
pH range: 3.0–9.0

INCI Name:
Betaine, Sucrose, Hydrolyzed Rhodophyceae Extract, Water

CutiGuard CLR™ is unpreserved.

for fine cosmetics · since 1926

MultiMoist CLR™ – Making real waves in skin moisturization

MultiMoist CLR™ activates production of the vitamin D receptor (VDR) and promotes the VDR's activation. MultiMoist CLR™ also potentiates the effect of vitamin D. As a consequence the skin becomes more moisturized. By making use of 5 different objective instrumental approaches, the immediate and long term moisturizing properties of MultiMoist CLR™ were convincingly proven. DayGlow

Invisible Sun Fluid OW

This ultra-light Sun Fluid blends in seamlessly while protecting and perfecting skin - ideally to be used under makeup. Formulated with **MultiMoist CLR™**, it hydrates deeply. **G+C Complex CLR™** effectively activates anti-immunosuppressive processes on the cellular level and increases cellular repair mechanisms. **CefiraProtect CLR™** makes skin more resilient and tolerant to environmental stressors.

A multitasking essential for mindful millennials seeking effortless daily protection with a focus on prevention.

Featured Products

MultiMoist CLR™ – Making real waves in skin moisturization

MultiMoist CLR™ activates production of the vitamin D receptor (VDR) and promotes the VDR's activation. MultiMoist CLR™ also potentiates the effect of vitamin D. As a consequence the skin becomes more moisturized. By making use of 5 different objective instrumental approaches, the immediate and long term moisturizing properties of MultiMoist CLR™ were convincingly proven. Additionally, the activity of MultiMoist CLR™ was proven in a consumer study, where the subjective improvement of skin moisture content, skin smoothness and the look of skin were confirmed.

MultiMoist CLR™ consists of a powerful synergistic blend of fructooligosaccharides and beta vulgaris (beet) root extract.

Dosage: 3.0%
pH range: 3.0–8.0

INCI Name:
Fructooligosaccharides, Beta Vulgaris (Beet) Root Extract, Water

MultiMoist CLR™
is unpreserved.

CefiraProtect CLR™ – Empowering skin's resilience

CefiraProtect CLR™ acts as a daily companion for skin, protecting it against the influences of the exposome and making skin clearly more resilient. It rejuvenates skin's own antioxidant potential and protects the most vital proteins of skin against free radical damage. In doing so, CefiraProtect CLR™ enhances the self-maintaining properties of skin, improving skin barrier, firmness and elasticity while counteracting in depth inflammations which drive skin deterioration with age.

Obtained from Lactobacillus kefiranofaciens, CefiraProtect CLR™ is a modern, vegan fermented skincare ingredient. Lactobacillus kefiranofaciens is an important constituent of kefir grains, and is known for its probiotic properties. It produces the high-value ingredient kefiran, a polysaccharide with significant health-promoting properties.

Dosage: 1.0–3.0%
pH range: 3.0–9.0

INCI Name: Betaine, Isomalt, Lactobacillus Ferment Lysate, Kefiran

CefiraProtect CLR™ is unpreserved.

for fine cosmetics · since 1926

G+C Complex CLR™ – A postbiotic approach towards photoaging

G+C Complex CLR™ is a biotechnological anti-aging active, obtained from a lysate of probiotic bifidobacteria, which potently protects against UV-induced damage in the skin. UV radiation leads to skin cell damage and immunosuppression, a deactivation of the local immune system in the skin.

By effectively activating anti-immunosuppressive processes on the cellular level, G+C Complex CLR™ increases cellular repair and potently supports the skin's endogenous protection mechanisms. G+C Complex CLR™ thus counteracts premature skin aging, i.e. photoaging.

Dosage: 1.0–5.0%
pH range: 3.8–7.0

INCI Name:
Bifida Ferment Lysate

G+C Complex CLR™
is preserved with sodium benzoate.

CLR Formulation Concepts

RE:CHARGE

Shampoo Scrub

A deep-cleaning, no-fuss shampoo scrub that revitalizes the scalp and boosts shine. **ProRenew Complex CLR™** leads to perceivable reduction of the sensitivity of the scalp, makes scalp tangibly healthier and reduces attributes related to dryness of the scalp. **MultiMoist CLR™** is a natural all-in-one solution for hair that shines, feels irresistibly soft, and is effortlessly manageable.

A no-nonsense formulation delivering pure performance–because Gen X likes it simple and highly effective.

Featured Products

MultiMoist CLR™ – The natural essence for gorgeous hair

MultiMoist CLR™ provides a holistic and natural solution for effortless hair care without compromises. It consists of a powerful synergistic blend of fructooligosaccharides and beta vulgaris (beet) root extract with multiple important benefits for hair and scalp. It shows convincing effects, in both leave-on and rinse-off formulations. MultiMoist CLR™ potently protects against the oxidative degradation of hair's keratins and lipids, even after just one application in shampoos.

It improves overall hair condition, shine, and suppleness. In addition, MultiMoist CLR™ strengthens hair and reduces frizz and static flyaway. Finally, it even protects against color fading caused by repeated washing with shampoo, making MultiMoist CLR™ a natural all-in-one solution for hair that shines, feels irresistibly soft, and is effortlessly manageable.

Dosage: 1.0%
pH range: 3.0–8.0

INCI Name:
Fructooligosaccharides, Beta Vulgaris (Beet) Root Extract, Water

MultiMoist CLR™
is unpreserved.

ProRenew Complex CLR™ – Effective care for healthy scalp

ProRenew Complex CLR™ is a postbiotic ingredient based on Lactococcus lactis. Elaborate studies have shown that it has important benefits for both the health of the skin and the skin microbiome. Skin becomes less sensitive and more robust and the skin microbiome is supported strongly.

ProRenew Complex CLR™, even as part of shampoos, improves the condition of the scalp and makes it less oily. It additionally leads to perceivable reduction of the sensitivity of the scalp, makes scalp tangibly healthier and reduces attributes related to dryness of the scalp. ProRenew Complex CLR™ provides important support for the skin and the scalp, even from rinse-off formulations.

Dosage: 3.0%
pH range: 4.0–7.0

INCI Name:
Lactococcus Ferment Lysate

ProRenew Complex CLR™
is preserved with sodium benzoate.

Also available as
ProRenew Complex CLR™ NP,
stabilized with phenylpropanol and levulinic acid/sodium levulinate.
