

CLR Formulation Concepts

Cocoon Body Cream OW

This Cocoon Body cream is a rich, enveloping formula that deeply nourishes and protects the skin, forming a soft, comforting barrier against dryness. Its silky texture melts effortlessly upon application, delivering long-lasting hydration and a soothing, cocoon-like sensory experience.

MultiMoist CLR™ provides lasting hydration while leaving a silky, softly matte skin feel. **AnnonaSense CLR™** promotes skin homeostasis, helping reduce stress and enhance overall well-being.

Apply on the whole body and gently rub in until absorbed.

Featured Products

MultiMoist CLR™ – Making real waves in skin moisturization

MultiMoist CLR™ activates production of the vitamin D receptor (VDR) and promotes the VDR's activation. MultiMoist CLR™ also potentiates the effect of vitamin D. As a consequence the skin becomes more moisturized. By making use of 5 different objective instrumental approaches, the immediate and long term moisturizing properties of MultiMoist CLR™ were convincingly proven. Additionally, the activity of MultiMoist CLR™ was proven in a consumer study, where the subjective improvement of skin moisture content, skin smoothness and the look of skin were confirmed.

MultiMoist CLR™ consists of a powerful synergistic blend of fructooligosaccharides and beta vulgaris (beet) root extract.

Dosage: 3.0%
pH range: 3.0–8.0

INCI Name:
Fructooligosaccharides, Beta Vulgaris (Beet) Root Extract, Water

MultiMoist CLR™
is unpreserved.

AnnonaSense CLR™ – Decoding the skin-mind connection

As a neurocosmetic active ingredient, AnnonaSense CLR™ acts at the top of the hierarchy of the skin's immune system. As an agonist for the CB2 receptor it reduces TRPV1-induced and other inflammatory processes. AnnonaSense CLR™ has a strong influence on the entire skin-brain-endocrine feedback loop. It perceptibly improves the look and comfort of skin and it reduces psychological stress and improves quality of sleep. Consequentially, it reduces the production of cortisol inside the body and, lastly and making this loop complete, it acts against the negative effects of systemic cortisol on skin by improving skin health.

AnnonaSense CLR™ is a natural and upcycled ingredient. It is obtained from Annona cherimola, common name Cherimoya, an edible fruit originating from South America.

Dosage: 3.0%
pH range: > 5.2

INCI Name:
Annona Cherimola Fruit Extract

AnnonaSense CLR™
is preserved with Sodium Dehydroacetate and Phenylpropanol.

Also available as
AnnonaSense CLR™ NP, stabilized with Pentylene Glycol, p-Anisic Acid, and Ethylhexylglycerin.

PHASE	TRADE NAME	INCI NAME	SUPPLIER	W/W %
A	Cutina GMS-SE G	Glyceryl Stearate SE	BASF	5.00
	Cutina FS 45	Stearic Acid, Palmitic Acid	BASF	1.00
	Lanette O MB	Cetearyl Alcohol	BASF	2.00
	Cegesoft SB 45 TR	Butyrospermum Parkii (Shea) Butter	BASF	8.00
	Cetiol J 600	Oleyl Erucate	BASF	4.00
	Cetiol RLF	Caprylyl-Caprylate/Caprate	BASF	3.00
	Cetiol MM	Myristyl Myristate	BASF	2.00
	Verdessence Xanthan	Xanthan Gum	BASF	0.50
B	Deionized Water	Water	N.A.	ad 100
	LaraCare A200	Galactoarabinan	Lonza	0.50
C	MultiMoist CLR™	Fructooligosaccharides, Beta Vulgaris (Beet) Root Extract, Water	CLR	3.00
	Nipaguard SCE	Sorbitan Caprylate, Propanediol, Benzoic Acid	Clariant	1.00
	Perfume Soothing Prodigy 155	Fragrance	IFF	0.20
	NaOH (32%)	Water, Sodium Hydroxide	N.A.	q.s.
	AnnonaSense CLR™	Annona Cherimola Fruit Extract	CLR	3.00

Operating Instructions:

Heat up A and B to 80°C separately. Add A to B under stirring. Homogenize for 3 minutes by Ultra Turrax and cool down while stirring. Add C in this order below 30°C and stir until uniform. If necessary, adjust pH value to 6-6.5.

Directions for use:

Apply on the whole body and gently rub in until absorbed.

The recommendations and formulations given are based on our knowledge and experience in the field of technical application. They are, to the best of our belief, correct, but are offered without obligation. Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

This formula has been manufactured and stability-tested using a special preservative, but has not been subjected to microbiological challenge tests.
