| C | SYRICALM™ CLR (PC) | WATER PHRAGMITES COMMUNIS EXTRACT PORIA COCOS EXTRACT | CLR | 3.00 |
| C | EUXYL PE9010 | PHENOXYETHANOL ETHYLHEXYLGLYCERIN | SCHUELKE | 0.50 |
| | | | | 100.00 |

Operating instructions

Operating Instructions

Mix A , B and heat to 75°C separately. Add B to A very slowly while homogenizing. Cool down to 35°C and add C. Stir until homogenous.

Directions for use:

Apply a small amount to fingertips and distribute all over skin to eliminate impurities and make-up. Then add water to transform gel into milk and rinse off.

The recommendations and formulations given are based on our knowledge and experience in the field of technical application.

They are, to the best of our belief, correct, but are offered without obligation.

Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

This formula has been manufactured and stability-tested using a special preservative, but has not been subjected to microbiological challenge tests.
