Take A Deep Breath Jelly Gel Mask

Daily stress caused by busy urban lifestyles lead to a lack of time for yourself. A face mask is the perfect way to combine self-care and goal-oriented skincare. This effective Jelly Gel Mask pampers stressed skin with a holistic sensorial experience. The combination of two highly effective active ingredients provides skin with all it needs to maintain health and well-being.

G+C Complex CLR™ effectively activates anti-immunosuppressive processes on the cellular level and increases cellular repair mechanisms. **MultiMoist CLR™** leaves the skin with a moisturized, silky and matt feeling.

Directions for use: Apply the mask on cleansed skin generously. Leave-on for 10-15 minutes and massage into skin.

Featured Products

G+C Complex CLR™ – A postbiotic approach towards photoaging

G+C Complex CLR™ is a biotechnological anti-aging active, obtained from a lysate of probiotic bifidobacteria, which potently protects against UV-induced damage in the skin. UV radiation leads to skin cell damage and immunosuppression, a deactivation of the local immune system in the skin.

By effectively activating anti-immunosuppressive processes on the cellular level, G+C Complex CLR™ increases cellular repair and potently supports the skin's endogenous protection mechanisms. G+C Complex CLR™ thus counteracts premature skin aging, i.e. photoaging.

Dosage: 5.0–10.0%
pH range: 3.8–7.0

INCI Name:
Bifida Ferment Lysate

G+C Complex CLR™
is preserved with sodium benzoate.

MultiMoist CLR™ – Mapping the moisturization puzzle

MultiMoist CLR™ activates production of the vitamin D receptor (VDR) and promotes the VDR's activation. MultiMoist CLR™ also potentiates the effect of vitamin D. As a consequence the skin becomes more moisturized. By making use of 5 different objective instrumental approaches, the immediate and long term moisturizing properties of MultiMoist CLR™ were convincingly proven. Additionally, the activity of MultiMoist CLR™ was proven in a consumer study, where the subjective improvement of skin moisture content, skin smoothness and the look of skin were confirmed.

MultiMoist CLR™ consists of a powerful synergistic blend of fructooligosaccharides and beta vulgaris (beet) root extract.

Dosage: 3.0%
pH range: 3.0–8.0

INCI Name:
Fructooligosaccharides, Beta Vulgaris (Beet) Root Extract, Water

MultiMoist CLR™
is unpreserved.
