E	Perfume Herbs	Fragrance	Voegele	0.15
				100.00

## **Operating Instructions**

Heat up A and B to 70-75°C separately. Add A to B while stirring and homogenize. Cool down while stirring and add C in this order below 30°C. Adjust pH-value to 5-5.5 and add E as desired.

Directions for use:

Take a pea-sized amount and gently massage into the skin.

 $The \ recommendations \ and \ formulations \ given \ are \ based \ on \ our \ knowledge \ and \ experience \ in \ the \ field \ of \ technical \ application.$ 

They are, to the best of our belief, correct, but are offered without obligation.

Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

This formula has been manufactured and stability-tested using a special preservative, but has not been subjected to microbiological challenge tests.
