D	Oramix CG 110	Caprylyl/Capryl Glucoside	SEPPIC	1.50
				100.00

Operating Instructions

Mix A in this order and stir until homogeneous. Add B while stirring and adjust pH value to 3-3.5 with C. Add D as desired. Stir until homogeneous.

Directions for use:

Saturate a cotton pad with the serum. Sweep across face, neck and décolletage, avoiding the eye area.

Always use SPF and limit sun exposure after using this product.

The recommendations and formulations given are based on our knowledge and experience in the field of technical application.

They are, to the best of our belief, correct, but are offered without obligation.

Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

This formula has been manufactured and stability-tested using a special preservative, but has not been subjected to microbiological challenge tests.
