Operating Instructions

Mix A and heat up to 85°C while stirring slowly until completely melted. Add B/C and homogenize for 1-2 minutes. Pour directly into an appropriate container and cool down immediately.

Directions for use:

Twist the bottom of the container counter-clockwise until the product is revealed. Gently massage product over damp face in a circular motion. Wet your fingertips and lightly massage over face and neck to create a lather. Rinse off with lukewarm water.

The recommendations and formulations given are based on our knowledge and experience in the field of technical application.

They are, to the best of our belief, correct, but are offered without obligation.

Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

This formula has been manufactured and stability-tested using a special preservative, but has not been subjected to microbiological challenge tests.
