Operating Instructions

Mix A and B separately. Add A to B and stir until uniform slowly. Add C in this order and stir. Adjust pH value to 5-5.5 with D. Add E and stir until uniform.

Directions for use:

Spread the wash gel all over your hands and massage it thoroughly between 20 fingers and on the fingertips for 20-30 seconds. Rinse the foam off your hands thoroughly.

The recommendations and formulations given are based on our knowledge and experience in the field of technical application.

They are, to the best of our belief, correct, but are offered without obligation.

Those who use our recommendations and formulations as well as those who process CLR Active Agents are themselves responsible for the adherence to prevailing statutory regulations and the observance of patent rights as well as other protective rights for other companies.

This formula has been manufactured and stability-tested using a special preservative, but has not been subjected to microbiological challenge tests.
